

On site preparation classes available for dance/drill team candidates.

We come to you!

"We are here to educate, motivate, and inspire you to dance."

Dance team performance training: Backstage Coach Productions would like to come to your school and offer a preparation workshop for your candidates. We are here to assist you in maintaining or building your program with a positive image that promotes the dance team.

How it works: You distribute registration forms to your dance classes and interested students. Parents mail the registration forms to us. We take care of all the registration, and you provide the location and sound system.

Workshop Instruction: With a minimum of ten students we confirm your workshop. Six classes will be hosted on your campus and taught by one of our instructors. The dance team preparation class is held for an hour and a half and teaches both jazz and high kick technique. Audition performance skills are emphasized. Dancers who complete the workshop are better prepared to participate in a successful try out.

Curriculum: The dance team preparation class is designed to teach the basics of a high kick and jazz dance skills. Conditioning, flexibility, technique, and alignment will be addressed. A warm-up will be shared along with across the floor and center work. This is an excellent class for those students wanting to learn or practice skills such as the high kick, jetés, pirouettes, chaine/piqué turns, axles and switch leaps. Skills will be taught for a variety of ability levels. A short kick and jazz combination will be taught in each class.

Our Philosophy: We are dedicated to providing the training and audition skills needed for dance/drill team candidates. Classes are taught in a supportive atmosphere with emphasis on individual success in a team environment. We can help the dancer to perform correct technique, learn how to execute skills, and to gain confidence in performance. Our goal is to share the tools to make the dancer's audition successful.

"I enjoy teaching prep classes because of the energy, hope, and expectations of the dance candidates. Students realize their potential and develop a self-awareness of their performance skills. Borderline candidates often seek private instruction to make the team. A great boost for any dance program; the more you train the better you dance."

. . . . Gina Sawyer

Now booking on site preparation classes for dance/drill team candidates.

BENEFITS

- * no work for the director!
- * builds awareness for upcoming team auditions
- * dance candidates are more likely to attend prep classes hosted on campus
- * a positive experience with exposure to dance training
- * participants are increasing their technique and performance ability
- * additional training makes your try outs and future team more successful

FEES

The fee for each dancer is \$65. This breaks down to about \$10 for each 1 1/2 hour class, for six-weeks. *Dallas studios' current fee for a 1 1/2 hour class, for only four weeks is \$85.*

REGISTRATION

I will give you a registration/release form to distribute to your dancers. They can complete and mail to me. Nothing for you to collect!

DATES

The following are needed as soon as possible. Once you have decided on the dates, I will work to secure an instructor for your area.

1. Beginning and ending date for the preparation class
2. Day of week
3. Time of day

At no other time are students more willing to learn than BEFORE auditions. At no other time are parents more willing to invest in dance training. Please contact us to schedule a date and time for your team's preparation workshop. gina@backstagecoach.com
